The Numerology Professor

Transformational Yogic Numerology

Yogic Numerology was originally a secret art, traditionally passed from master to master. It was practiced by the few learned advisers to the kings, traders and spiritual leaders. Sages and healers applied these extraordinary teachings to reach higher states of consciousness. They counseled royalty, helping to arrange marriages and sign treaties. They advised merchants, predicting cycles and trends of trade. They were the educators in natural medicine, treating mind, body and spirit.

Today, Yogic Numerology is available as a certification course, providing you with the training you need to set your purpose and direction, enlighten your path, solve problems, and achieve excellence in every area of life, and help others do the same.

An Engaging and Vibrant E-Learning Experience

The Numerology Professor is highly recommended for Yoga teachers and therapists, counselors and alternative healers. However, this online course is open to everyone. Although Yogic Numerology is a branch of Yoga, you do not need to be a Yoga practitioner to benefit. It is ideal for anyone interested in self-awareness, self-improvement and uplifting others.

The certification program is divided into four comprehensive sections, introducing you to the most important facets of classical Yogic Numerology. You may apply at any time for an upgrade to the Das Prakash Yoga Therapy program, for a discounted additional fee, where you will have the opportunity to grow your professional skills, participate in a comprehensive paid practicum and complete a final exam. Learn everything you need to know through this step-by-step training process and become a trusted practitioner in the field, accurately and effectively guiding others.
